EDUCATION

****Colgate University**** — ***Bachelor of Arts, Computer Science & Mathematics (Double Major)***

Hamilton, NY | Expected May 2029

- GPA: 3.92/4.00

- Honors: Dean's Award for Academic Excellence with Distinction

- Relevant Coursework: Computing I (Python), Computing II (Java), Computational Statistics with R

- Activities: Alumni Memorial Scholar, Colgate Coders Club, African Students Association, ITS Student Consultant

****eMobilis Technology Training Institute**** — ***Certificate in Full Stack Development***

Nairobi, Kenya | Feb 2024 – Jun 2024

- GPA: 3.90/4.00

- Roles: Teaching Assistant, Online Class Representative

TECHNICAL SKILLS

****Programming Languages:**** Python (Advanced), Java (Advanced), JavaScript (Advanced), TypeScript, C++ (Experienced), R, HTML, CSS

****Frameworks & Libraries:**** React, Next.js, Express.js (Advanced), FastAPI, Bootstrap, Tailwind CSS, Expo

****Databases:**** PostgreSQL (Neon)

****Tools & Technologies:**** Git/GitHub (Advanced), Figma, Multer, OpenAI API, NumPy, Pandas, Matplotlib, Scikit-Learn, Seaborn

****Methodologies:**** Agile Scrum, RESTful API Development

PROJECTS

****AI-powered Resume Cleaner****

Sep 2025 – Present

- Developed a web application that parses resumes, detects errors, and generates ATS-optimized suggestions leveraging OpenAI's large language model API.

- Enabled secure PDF/DOCX file uploads using Multer, refined formatting and keyword optimization aligned with job descriptions without introducing false information.

- Designed and maintained a Neon PostgreSQL database with structured SQL tables to store user and resume data securely.

- Built an Express.js backend for resume processing and a responsive React frontend styled with Tailwind CSS for seamless user experience.

****ChamaTrack (Money Management App)****

Feb 2025 – Apr 2025

- Created a full-stack mobile application using React Native and Expo to help users track income and expenses efficiently.
- Implemented secure user authentication via Clerk and integrated Neon PostgreSQL for reliable financial data storage.
- Developed a clean, minimalist React interface with a scalable Express.js backend exposing RESTful APIs to support user workflows.

PROFESSIONAL EXPERIENCE

****Colgate University**** — ITS Student Consultant

Hamilton, NY | Sep 2025 – Present

- Assisted students and faculty with onboarding and navigating university software using enterprise tools such as Bomgar, GLPI, and the Colgate Equipment Lending system.
- Ensured smooth technical operations by troubleshooting and resolving software issues promptly, enhancing user satisfaction.

****codeKenya**** — Software Engineering Summer Intern

Nairobi, Kenya | Jun 2025 – Aug 2025

- Developed a web platform connecting alumni and students by enabling profile, event, and job listing searches to improve networking opportunities.
- Collaborated closely with the lead UI/UX designer to create user-friendly front-end designs using Figma.
- Built a responsive front-end with React and Tailwind CSS and a scalable backend with FastAPI and PostgreSQL.
- Participated in bi-weekly Agile sprint reviews to optimize code quality and project delivery.
